Newly launched services by Areeba in Syria

Areeba, the mobile phone brand of Investcom LLC, announced today that it recently launched a number of new services including internet and WAP over GPRS.

Details of the three newly launched services include:

- 1) An 'Internet & WAP over GPRS' service that enables contract subscribers to benefit from GPRS services such as accessing the internet. This allows subscribers to check and reply to emails, read real-time news and access important files as required. Payment is based on the data downloaded or uploaded.
- 2) Prepaid customers are now able to subscribe to the monthly fee used services. The new 'Pay as you Talk' monthly subscription enables prepaid customers to subscribe to *Super Clip (Missed Call Alert)*, *Al Jazeera* mobile and *SANA* (Syrian Arab Network Agency) breaking news. The news is available in both Arabic and English and keeps the subscriber in touch with the latest news, sports and events.
- 3) The 'Pay as you Talk' roaming service enables prepaid subscribers to receive calls and text messages while roaming outside Syria. It covers nine countries typically frequented by a high majority of outbound roamers, including Lebanon, Jordan, Egypt, Turkey, United Arab Emirates, Saudi Arabia, France, Germany and Italy.
